Projects

- **AI Chat-Bot Application:**
Domain: Web Application | Programming Languages: HTML, CSS and JavaScript.
Constructed a working Chat Bot to engage in conversation with users.
The frontend is built using HTML and CSS.
JavaScript integrates artificial intelligence to engage in conversation with users.
- **Spotify Clone Application:**
Domain: Web Application | Programming Languages: HTML, CSS and JavaScript.
Spotify Clone is a web application designed to mimic the functionality and user interface of the popular music streaming service, Spotify.
The frontend, built with HTML and CSS, creates the visual layout and styling of the application, including elements like navigation bars, song lists, and player controls like seek music and increase/decrease volume.
JavaScript is used to add interactivity to the site, enabling features such as playlist management, and audio playback functionality.

Achievements

- Secured First Position in Logical Reasoning Competition:
- 100 day Streak on LeetCode :
- One among the Top 10 groups in Hackverse Hackathon:

Certifications

- Data Structure and Algorithm Course- Self-Paced (C++) by GFG.
- Foundations of User Experience Design by Google
- HTML, CSS and JavaScript for Web Developers by Google (Coursera)
